

How can academic advisors support me?

Intellectually

- Collaboratively design a strategic course plan exploring majors and minors
- Connect your learning across disciplines, and beyond the scope of UCLA

Professionally

- Explore valuable leadership and teamwork experiences
- Relate the skills acquired from your undergraduate experience to your career goals

Personally

- Encourage you to participate in extracurricular activities
- Challenge you to reflect on your personal development and well-being

Before we meet

Effective academic advising required deep engagement and responsibility from both advisor and student. To participate fully in this academic advising experience, we encourage you to do your part and be:

- Proactive in seeking information, support, and knowledge
- Accountable for your own educational and personal choices
- Respectful of yourself, faculty, staff, and the community
- Transparent about your academic and personal goals

Visit your advisors early and often
